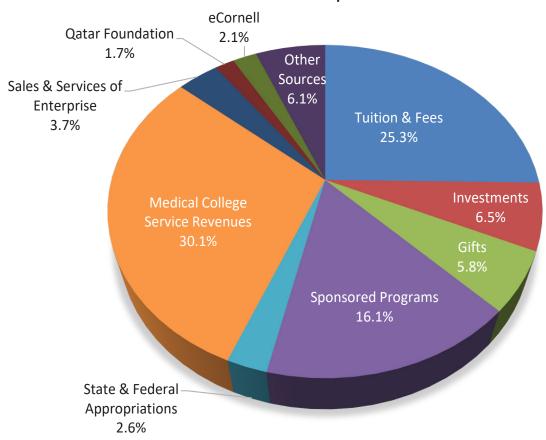

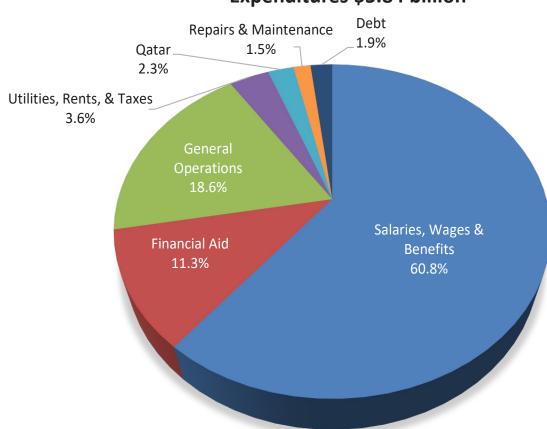

Figure 2. Fiscal Year 2024 Expenditures \$5.84 billion

From the Vice President

FROM THE VICE PRESIDENT OF BUDGET AND PLANNING

This financial report summarizes the full Cornell University 2023-24 operating and capital budgets which are submitted to the Board of Trustees for review and approval. It includes all of our programs across the Ithaca, Cornell Tech, Weill Cornell Medicine, and Qatar campuses. You will find the Cornell Tech campus is included in the Ithaca operating budget while Weill Cornell Medicine (WCM) is presented separately with Qatar.

As the university continues to plan for a variety of activities, judicious oversight on operating budgets, personnel planning, capital spend and efficiencies in administrative support remain at the forefront towards our effort in successful financial operations. This careful management of funds will ultimately help support the university priorities in affordability, the academic mission and technology, among other things.

Many thanks to all who have participated in this thoughtful work now and throughout the pandemic as we continue to project healthy financial returns, again, in fiscal year 2023 and in 2024. Similar to last year, our revenue projections are trending higher than earlier 10-year models, primarily due to tuition rate increases on the Ithaca campus and additional clinical revenues at Weill Cornell Medicine. Expenditures are trending slightly higher but primarily in inflationary areas such as facility rates and contractual agreements in procurement. The university's commitment to affordability also contributes to the overall increase in expenses, with sources coming directly from alumni support.

Overall, for fiscal year 2024, revenues are planned at \$5.9 billion, a 4.7 percent increase over fiscal year 2023 forecast, and operating expenditures are planned at \$5.8 billion, a 4.6 percent increase to the current year forecast. The balanced year-over-year increase both in revenue and expense reflects stabilized activity level for all campuses.

Ithaca campus revenue is planned at \$3.2 billion, an increase of 4.5 percent or \$139.2 million more compared to the current year forecast. Tuition, the most significant revenue stream for the Ithaca campus, is planned to grow by \$57.6 million with all program enrollments targeting normal levels in addition to the nearly completed planned growth in the undergraduate program. Housing and Dining revenues will increase by \$14.2 million, with modest funding targeted towards deferred maintenance.

Operating expenses for the Ithaca Campus will also increase by 5.9 percent over the current year forecast of \$2.9 billion. The total expense budget of \$3.1 billion includes personnel costs increasing by \$83.7 million and general operating expenses increasing by \$36.9 million. The university assumes a return to normal staffing levels with a controlled open headcount assumption in the current

operating budget. General expenses reflect higher levels in fiscal year 2024 leading to a higher delta between the previous two years, all contributed by the incremental activity post-pandemic. Travel, events and research activity all assume to be at normal levels with diligent oversight as mentioned earlier.

Weill Cornell Medicine revenues are projected to total \$2.7 billion, an increase of 4.8 percent or \$125.4 million over the current year forecast. Clinical revenues will continue to increase by 4.3 percent or \$59.2 million. Sponsored revenues are planned to increase by \$9.6 million with expected growth in NIH funding and clinical trial revenues. Weill Cornell Medicine expenditures are planned at \$2.7 billion, increasing by 3.2 percent or \$83.8 million over the current year forecast. Similar to the Ithaca campus, the most significant impact from cost increases will be in personnel and general operating expenses. Personnel costs are projected to increase by \$60.2 million or 3.4 percent, and general operating expenses will increase by \$20 million or 3.9 percent.

The university's capital budget for fiscal year 2024 projects expenditures of \$404 million across all campuses, much of which can still be attributed to a backlog of approved projects and priorities, many of which were committed to several years prior to the COVID-19 delays. These include the Ann S. Bowers Computing and Information Science Building, Atkinson Hall, and renovations for Balch Hall and McGraw Hall on the Ithaca campus. The Weill Cornell student housing project with a projected budget of \$264.0 million was also included in earlier planning. These are the largest drivers in the current capital budget. The capital budget also includes significant investment in deferred maintenance across the campuses.

Ongoing planning, both financial and operational, will help us achieve the strategic objectives and goals. In addition, our fundraising campaign, *To Do the Greatest Good*, is designed to support these priorities for years to come.

Laura E. Syer

Vice President for Budget and Planning

Jam & Sym

Cornell University's composite operating plan for FY 2024 is based on the plans of its three campuses: Ithaca Campus (inclusive of Cornell Tech) and Weill Cornell Medicine (WCM) with campuses in New York City and Doha, Qatar. Table 1 on the facing page shows the overall university plan, with summary and detailed plans immediately following.

Resources

Revenues are projected at \$5.95 billion, an increase of 4.7 percent from the FY 2023 forecast.

- **Tuition and Fees** are planned to increase 4.2 percent, primarily due to rate increases.
- The net increase in **Investment/Endowment Distribution** is expected to be 4.9 percent. The total payout has been set at 5.0 percent of a 28 quarter rolling market average. The increase is due to growth in payout rate and increase in number of shares.
- Unrestricted and Restricted Gifts for general operations are expected to increase 3.1 percent. Restricted gifts in current and prior years include one-time gifts and sponsored gifts for which similar future giving is not certain, but overall growth can be attributed to campaign support.
- Sponsored Programs (Direct) costs of grants and contracts (excluding Qatar) are expected to increase 6.2 percent and recoveries of Facilities and Administrative Costs are projected to increase 4.3 percent due to growth in faculty and research center activity in Ithaca and NIH support, clinical trials and corporate-funded research for WCM. Sponsored direct and facilities and administrative cost recovery are planned to total \$924.6 million.
- Revenues from the **Physician Organization** are projected to increase \$59.2 million over the FY 2023 forecast reflecting new business plans, joint ventures and medical service agreements.
- Educational Activities and Other Sources are projected to increase \$16.7 million or 4.7 percent from the FY 2023 forecast. This increase is due an increase in rates and expansion of non-tuition based activities.

Use of Resources

FY 2024's planned expenditures are projected to be \$5.84 billion, an increase of 4.6 percent from the FY 2023 forecast.

• Salaries, Wages and Benefits are projected to increase \$143.9 million or 4.2 percent, due to salary improvement programs, supplemental compensation, growth in graduate stipends and growth in faculty.

- Undergraduate Financial Aid is expected to increase by \$30.6 million or 8.2 percent from the FY 2023 forecast due to increase in aid awarded and reduction in student debt.
- Graduate and Professional Financial Aid is projected to increase by \$4.7 million or 1.8 percent from the FY 2023 forecast to help offset increases in tuition
- General Expense and Purchased Services are projected to increase 5.5 percent or by \$56.7 million from the FY 2023 forecast. This increase reflects faculty startups, anticipated costs of goods and research activity.
- Utilities, Rent and Taxes are projected to increase 4.9 percent due to inflationary increases.
- **Debt Service** for FY 2024 is expected to remain relatively flat from the FY 2023 forecast.

Non-Operating Activity

FY 2024's non-operating activity is planned as follows:

- \$115.9 million transfers to plant funds to support major capital project activity including critical maintenance projects.
- \$11.9 million transfers to funds functioning as endowment and \$37.9 million transfers from reserves to support in-year and future operational activity (timing for cash-based reporting), and
- \$5.0 million planned as university contingency.

Figure 3. Fiscal Year 2024 Ithaca Campus & Cornell Tech Revenues \$3.23 billion

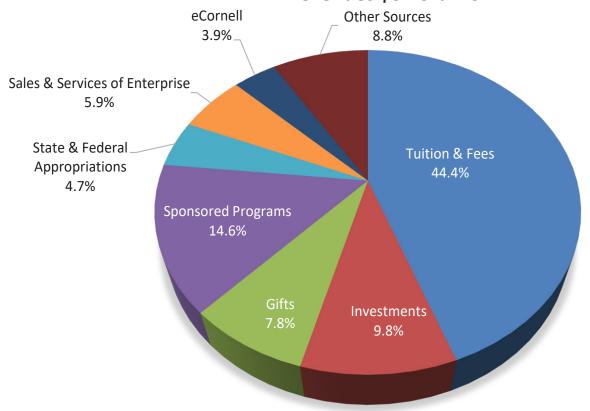

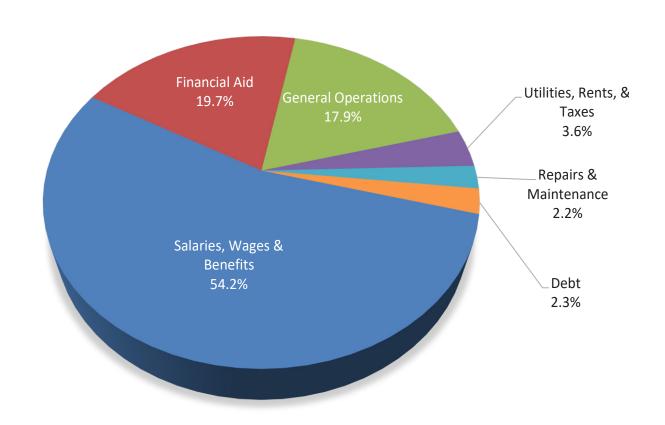

Figure 4. Fiscal Year 2024 Ithaca Campus & Cornell Tech Expenditures \$3.12 billion

Resources

FY 2024's planned revenues are projected at \$3.23 billion (including Cornell Tech and e-Cornell), an increase of 4.5 percent from the FY 2023 forecast.

- Tuition and Fees are planned to increase \$57.6 million, or 4.2 percent, from the FY 2023 forecast primarily due to rate increases. The undergraduate tuition rate increase is 4.4 percent for endowed and 4.6 percent for contract colleges resident students, respectively. Appendix E provides details on actual and projected enrollments.
- **Investment Distributions** are projected to increase by 5.3 percent. The increase is due to a growth in shares and increase in payout. Total payout is set at 5.0 percent of a 28 quarter rolling market average. Shareholder payout is set at \$2.65 per share.
- Unrestricted and Restricted Gifts for current operations are planned at \$251.8 million, an increase of 3.4 percent from the FY 2023 forecast. Restricted gifts in current and prior years include one-time gifts and sponsored gifts, for which similar future giving is not certain, but overall growth can be attributed to continued campaign efforts.
- Sponsored Program Direct and Facilities and Administrative Costs are projected to total \$472.4 million in FY 2024, an increase of 3.6 percent from the FY 2023 forecast due to growth in research faculty and research center activity.
- Housing, Dining, Enterprises are projected to total \$192.1 million, reflecting a 7.9 percent increase from FY 2023 forecast to address inflationary pressures as well as deferred maintenance.
- Educational Activities and Other Sources are
 projected to total \$284.1 million in FY 2024, an
 increase of \$14.2 or 5.2 percent. The increase is due to
 an increase in rates for clinical activity housed in the
 College of Veterinary Medicine, Statler Hotel and other
 non-tuition based activity.
- **eCornell** revenues in FY 2024 reflect a 10.5 percent increase from the FY 2023 forecast due to external market conditions improving.

Use of Resources

Expenditures are planned at \$3.12 billion (includes Cornell Tech and e-Cornell), an increase of 5.9 percent from the FY 2023 forecast.

• Salaries, Wages and Benefits are projected to increase \$83.7 million or 5.2 percent. This increase is attributed to a 5.1 percent increase in the salary improvement program, increase in graduate stipends and growth in Bowers Computing and Information Science, Brooks School of Public Policy and research centers.

- Undergraduate Financial Aid is planned to increase by \$30.6 million or 8.2 percent over the FY 2023 forecast. FY 2024 budget includes incremental planning to increase aid and reduce student debt (some offset in gifts); cost of attendance, including housing and dining increases; and enrollment growth.
- **Graduate and Professional Financial Aid** is projected to increase \$3.3 million or 1.6 percent from the FY 2023 forecast to help offset increase in tuition.
- General Expense and Purchased Services are planned at \$557.9 million, an increase of \$37.0 million or 7.1 percent from the FY 2023 forecast to support new faculty startups, increase in cost of goods and new research center activity.
- **Repairs and Maintenance** is projected to increase \$8.9 million or 14.7 percent from the FY 2023 forecast to support planned maintenance activity and increases in cost of goods.
- **Debt Service** is planned at \$75.6 million.

Non-Operating Activity

FY 2024's non-operating activity is planned as follows:

- \$115.9 million transfers to plant funds to support major capital project activity including critical maintenance projects.
- \$11.9 million transfers to funds functioning as endowment and \$37.9 million transfers from reserves to support in-year and future operational activity (timing for cash-based reporting), and
- \$5.0 million planned for university contingency.

Resources

FY 2024's planned revenues are projected to be \$2.72 billion, an increase of 4.8 percent or \$125.4 million from the FY 2023 forecast.

- Tuition and Fees are projected to be \$70.0 million at Weill Cornell Medicine (WCM) in New York. Tuition for the medical college will increase 4.5 percent to \$67,400 and tuition for the graduate school will increase by 3 percent to \$41,920.
- **Investment Distribution** is budgeted to increase 3 percent to \$67.3 million with the payout rate increasing to \$2.65 per share.
- Unrestricted and Restricted Gifts are budgeted to increase 2.2 percent to \$92 million. The increase is due to the targeted institutional fundraising priorities contemplated in Strategic Plan 4 as well as support received through the college's annual giving programs.
- Sponsored Programs (NYC) totaling \$452.2 million, consists of direct support of \$328.3 million and facility and administrative cost recoveries of \$123.9 million. The budget reflects a 10.0 percent increase in NIH support, a 5.0 percent increase in clinical trials, and a 4.0 percent increase in corporate-funded research. The federal F&A cost recovery rate will remain at 69.5 percent.
- Clinical Services Income totaling \$1.8 billion, includes direct patient revenues (\$1.1 billion), support from New York Presbyterian Hospital for regional Medical Service Agreements, new business plans, and clinical, administrative, training, and supervisory services (\$510 million) and joint ventures (\$219 million). The 5.0 percent increase for FY 2024 reflects modest growth in patient revenues and increases in Medical Services at WCI-NYP and the Queens and Methodist affiliations.
- Qatar Programs reflects support from the Qatar Foundation of \$101.9 million to support the academic program and \$31.9 million for the research program at WCM Qatar. The budget for the Qatar program is detailed separately on rows 7, 11, and 21 in Table 5.

Use of Resources

FY 2024's planned expenditures are projected to be \$2.72 billion, an increase of 3.2 percent or \$84.0 million from the FY 2023 forecast as WCM has continued to successfully control expenses.

• Salaries & Wages are projected to increase \$46.8 million or 3.2 percent to \$1.49 billion for FY 2024. The budget includes base and supplemental compensation as well as a 3.0 percent merit increase.

- Compensation derived from productivity metrics is expected to reflect reduced clinical growth.
- Employee Benefits totaling \$363.8 million are expected to increase \$13.4 million or 3.8 percent from the FY 2023 forecast. This projection parallels the increase in salaries and wages.
- Utilities, Rent, and Taxes total \$93.7 million, reflecting a decrease of \$2.2 million or 2.3 percent over the FY 2023 forecast. Inflationary increases in costs are more than offset by reductions in rent paid due to space consolidation.
- Support for the **Qatar Program** is projected to increase 3.2 percent to \$133.9 million, comprising both academic and research program budgets.
- **Debt Service** is budgeted to total \$37.6 million, with no increase over the FY 2023 forecast.

Net from Operations

The FY 2024 budget for Weill Cornell Medicine is expected to generate an operating surplus of \$938 thousand. This is the result of WCM's efforts to control expenses in a challenging operating environment and improving clinical growth from the FY 2023 forecasted deficit of \$41.0 million.

FY 2024 Capital Budget and Associated Future Five-Year Spend

The university's capital budget, provided in Table 6, identifies capital activity that will begin in FY 2024 as well as projects in-progress that will continue into FY 2024 and beyond. The FY 2024 capital budget for all campuses is \$404.1 million. An additional \$734.3 million in spending associated with these projects is expected during FY 2025 through FY 2028, and beyond.

Further details are provided in Appendix I, including each project's projected spending plan, sources of funding, and impact on the maintenance backlog. Table 7 identifies the funding sources and timing of use for each campus.

The capital budget represents capital activity for all campuses for projects greater than \$250 thousand each.

Ithaca Campus

Renewal of existing space remains a top priority for the Ithaca Campus, with the design of the McGraw Hall renovation underway. At \$123.8 million, the McGraw Hall renovation is the largest budgeted project for the Ithaca Campus. Construction for Balch Hall renewal is in progress, budgeted at \$88.8 million and funded by a \$10.0 million gift, unit and central resources and debt. Both major projects will address significant deferred maintenance and renew the facilities to meet current programmatic needs.

The Ann S. Bowers Computing and Information Science Building is the second largest budgeted project for the Ithaca Campus at \$113.0 million. The project has just begun construction and is projected to be occupied in late FY 2025. Connected to the existing Gates Hall, this new facility will support growth in the academic program. Funding for this project is supported by a \$103.3 million gift and unit resources.

The State University Construction Fund (SUCF) will continue to focus on the completion of the Plant Science Building Renewal – Phase I project, budgeted at \$69.0 million. Other notable projects funded through SUCF include the Veterinary Medical Center Roof Replacement, budgeted at \$15.0 million; the design of the Veterinary Research Tower Renovations, budgeted at \$13.8 million; and the College of Veterinary Medicine Waste Management Facility Replacements, budgeted at \$10.0 million.

The Ithaca Campus projects included in the FY 2024 Capital Budget will address an estimated maintenance backlog of \$234.0 million and functional renewal of \$322.7 million.

Cornell Tech

With major construction activity for Phase I complete, the Cornell Tech capital budget is focused on the academic fit-out of the Tata Innovation Center, acquired in FY 2022.

The Cornell Tech FY 2024 capital budget is \$24.7 million, with \$1.6 million in projected spend through FY 2023, 9.5 million in FY 2024 and \$13.6 million in associated spending between FY 2025 through FY 2028.

Weill Cornell Medicine (WCM)

The New Student Housing project is the largest budgeted project at WCM with an estimate of \$264 million. This project is funded by a \$129.0 million gift and debt.

Other projects on the NYC medical campus include: an imaging center with New York Presbyterian Hospital, budgeted at \$95.0 million; Sotheby's at 1334 York Ave Dry Labs, budgeted at \$85.0 million; and clinical space improvements at 575 Lexington Avenue, budgeted at \$45.0 million. The construction of the Belfer Research Building Shell Fit-Out – 8th floor project is expected to be complete in FY 2024, budgeted at \$24.0 million.

Other projects included in the WCM FY 2024 capital budget have been prioritized around renewal and the relocation of existing space.

The total estimated cost of projects in the WCM FY 2024 capital budget is anticipated to be \$544.4 million, with projected spend through FY 2023 at \$134.2 million, \$158.5 million in FY 2024, and \$251.7 million in associated spending between FY 2025 through FY 2028.

- a Gifts in Hand are cash payments. Restricted gifts for capital projects. Gifts Pledged are gift commitments with future payment. Gifts to be Raised are a projection of future, to-be-identified gifts.
- β Resources provided by the Colleges or Administrative Units from their operations, reserves, or investment income.
- Γ Resources from the Central Ithaca campus or Weill Cornell Medicine budgets. Ithaca campus funds include assessments, allocated funds, and usage fees.
- $\textit{$\Delta$ New York State funding provided to the SUNY campuses, administered by the State University Construction Fund (SUCF). }$
- ε Resources provided by federal, state, or local government agencies or private institutions. Funding from a third party, external to any Cornell funding source, used to develop project(s).
- π $\,$ Short-term loan funds to address a gap in the cash flow for a portion of capital activity.
- η Cadence was adjusted to reflect 20% of expenses pushed into the outyears in the categories of: Building Renewal, Renewal Programmatic Fit and Renewal Infrastructure and Maintenance, based on historical analysis of actual spend vs. budget. The FY 2023 trending adjustment reflects actuals through April with an updated forecast projection on the current year, the remaining cadence was added to the outyears to better align with historical analysis of spend.

- a The undergraduate enrollment deposit is a one-time payment made by newly accepted students that is applied as a tuition credit during the first semester of enrollment.
- β University Registrar is no longer assessing a late registration fee at the end of the 3rd or 5th weeks. If a student is withdrawn at the end of the term for non-payment and the student comes into compliance in resolving their College and Bursar hold(s) and the student is rejoined, they are charged a \$350 reinstatement fee.
- Γ As of Summer 2023 CESS will no longer require a fee for late registration. Students must pay in full prior to registering. Requests to add a class after the session deadline will require a petition.
- 4 The administrative/special fee covers administrative and support costs for the pre-1983 Cornell Children's Tuition Scholarship program.

12. Bundy Aid (based on degrees granted)	\$233	\$180	\$180	\$180
13. Total Weill Cornell Medicine	\$233	\$180	\$180	\$180
14. Total State Appropriations	\$130,482	\$131,195	\$131,612	\$131,120

- * Cornell receives New York State appropriations through the State University of New York (SUNY) and Bundy Aid directly from the state.
- * Not represented on this schedule are certain student financial aid funds and grants and contracts with state agencies. The schedule also excludes the value of employee benefits provided by New York State and debt service, neither of which are recorded by Cornell.
- α FY23 Forecast includes \$417,321 of incremental funds in support of Enrollment Initiatives.
- β FY 22 Actuals Cornell State University Construction fund critical maintenance expenditures are significantly less due to the start-up after the pandemic and related construction restrictions.

- a Unit Funds and other sources for unit-funded projects will be adjusted as operating budgets are finalized to reflect actual spending and funds available.
- The Projections through FY 2023 column are the sum of Prior Year Actuals, Current Year Actuals, and Current Year Projected Spend.
- McGraw Hall Renovation is the master project row for: McGraw Hall Renovation, Olin Library Basement and First Floor Renewal and Stimson Hall Enabling to McGraw.

Cadence was adjusted to reflect 20% of expenses pushed into the outyears in the categories of: Building Renewal, Renewal - Programmatic Fit and Renewal - Infrastructure and Maintenance, based on historical analysis of actual spend vs. budget. The FY 2023 trending adjustment reflects actuals through April with an updated forecast projection on the current year, the remaining cadence was added to the outyears to better align with historical analysis of spend.

- * Shown are the billing rates, expressed as percentages, used in each fiscal year; actual cost rates vary.
- * Endowed Ithaca has 3 employee benefit billing rates: (a) the full rate is used for most benefit-eligible employees; (b) a minimum rate is used when only mandated benefits are provided or when tips or pension-ineligible bonus payments are made; and (c) a zero rate is applied in limited situations, such as academic-year student wage payments, where the cost of any benefits provided is negligible.
- $\alpha \quad \textit{Ithaca federal indirect cost rates are provisional, pending receipt of a signed rate agreement.}$
- FY 2024 Weill Cornell Medicine indirect cost and benefits rates are estimated, pending approval by the Department of Health and Human Services.
- Γ FY 2024 contract college benefits rates are estimated pending submission to the Department of Health and Human Services for incorporation into the university's rate agreements. FY 2020- FY 2023 values shown are actual rates.
